Glidden Barstow Pioneer South Bay Farmer Dies

Glidden John Barstow, pioneer grower at South Bay, died at the Belle Glade Hospital, on Wednesday, September 22 at the age of 66 after a lingering illness of many months. He had already succumbed to the extreme low pressure attending the hurricane which brought on the final heart attack.

He was born on October 11, 1882 at Iquique, Chile on the family's shipping line, native of Thomaston, Maine. His early boyhood was spent at sea, his young manhood and education at Newcastle, Maine and Boston, Mass. He came to the Everglades October 1924 and had resided at South Bay continuously since then.

He spent 19 years in Wyoming as a National Forest Ranger and sheep man. There he married Gladys Horton, who preceded him in death in 1929. Two children were born of this union, Glidden John Barstow Jr., now of San Diego, California and Gladys F. Glidden, wife of Arcadia, two grandchildren, Fred and Jerry Barstow of San Diego, California.

Others survivors are his wife Mabel West Barstow, now deceased; Thomas and Barstow of St. Louis, Mo. and Don Curtis Barstow of South Bay, and one daughter, Ruth Elizabeth Barstow, of Iowa City, Iowa.

He was a member of the Episcopal Church at Clewiston having been confirmed at Trinity Church Boston.

He was also a member of the Masonic F. & A. M. Lodge at Kemmerer, Wyoming and the Law West Consistory.

Services will be held Sunday afternoon at 2 o'clock at Pahokee Episcopal Church, with Father A. J. Lively in charge and the Masonic Lodge taking part.

Burial will be at Woodlawn Cemetery in West Palm Beach with the Berry Funeral Home in charge of arrangements.

Pall bearers will be E. Harris Dyer, W. E. Williams, W. W. Jeffries, W. C. Allen, both of South Bay and W. P. Eisk, J. K. Baker, and Frank Anderson of Belle Glade.

Port Mayaca-Stuart Road Now Open To Traffic

Road No. 78, which leads from Route 15 at Port Mayaca eastward into Belle Glade and Stuart, has been completed and carries from Bellantown to Stuart, is now open for traffic. The new road will be 22 feet wide with seven foot berms. This road is a much used route from the Glades to upper east coast areas.

City Police Crack Down On Juvenile Car Thieves

For several months past there have been spasms where considerable car-robbing has been going on, in which car thieves, police, and federal agents and other articles were pattered. Over the week end city police officers broke the case and eight juveniles ranging in age from 10 to 16 years were taken into custody and charged. Justice Tedder's court where a hearing was held, and all the youths put under probation.

As a result of the confessions made, the law officers were able to recover most of the pats that were taken from the cars. Three cameras valued at \$150; a fishing rod and reel valued at \$50; several valuable purses and wallets and other valuable merchandise.

Softball Players Took Knife-Fork Swing At Steaks

Eddie Schoeppele and Billy Crider, managers of the Glades Chevrolet and Billy's Restaurant, sold 100 tickets to benefit the South Bay Restaurant.

Guests paid \$50 and invited themselves to the South Bay Restaurant. Thursday night, to show appreciation of their team work and sportsmanship, and was with the players. Billy had the Sindona-Kirchner trophy cup displayed at his table.

The cafe management in preparing the menu for the event did not pick out any kind of beef, but the steaks were cut by hand, tulip style, plated off with luscious fat and plenty of lean tissue, and cooked to the king's taste. There were no players who "struck out" or made "errors" in the game.

However, there was one guest, whom the managers mistreated, for by premeditated cogitation, they meant he should earn his supper. An uneducated waiter in this particular instance, to the effect that, "you are the toastmaster, so get busy." Well, the "Old Judge" did his best for the rest of the moment, effusing the program a buzzing, even though some of those introduced did get "red-faced" and "stammered" when called upon to state.

Among those who spoke were Eddie Schoeppele, Coach W. H. Cooke, Wallen, Hobbs, Frank Hobson, "Woody" Barnes, and "Slick" Kirchman and others.

Frank Hobson in his talk praised the players, their spirit of sportsmanship, and the patronage afforded the series. He stated that this year was the first in which the State Board of Public Instruction had introduced this system of town and county school authority for Glades farmers, first whether or not we will have a storm, and secondly, shall I plant crops? The condition reflects back on others besides farmers, and it creates an uneasy and uncertain period of our production year.

H. L. Speer, assistant county agent, states that the heavy rain of last Saturday, from south of Belle Glade, was confined into a comparatively small area.

Coach Cooke stated that he was well pleased with the result of the local session, as it had not only provided entertainment but also "body" recreation to the district's young players. He was sure that the experience secured by some of the younger players would reflect in the school baseball games.

He also called attention to the coming football season, which he declared was the hardest schedule the Rams have ever experienced and that there were no guarantees that the gridiron would be rugged.

That for the 1949 season he already had tentative plans for games with a number of outstanding teams which could not be named due to little time of preparation.

H. L. Speer is none too sanguine as to the market condition for local crops coming on, as he stated that there would be a dancing party at the club house on this Saturday evening, from 9 o'clock on, with a fine orchestra from Ft. Myers to furnish the music.

Good Rice Crop Gleamed At Seminole Farm

Wendell Lyons, who has been residing at McLeansboro for the past 18 months, spent a portion of last week here looking after business and his Bean City farm. Mr. Lyons is planning on again taking up his residence here, to be with his holdings, and also to gratify the wish of his widow.

Elmer, their son, who recently joined the Army, is still at Whitefish Falls, Texas, where he is taking his basic training course and expects he is likely in the new Army life.

Lynnes To Return To Belle Glade

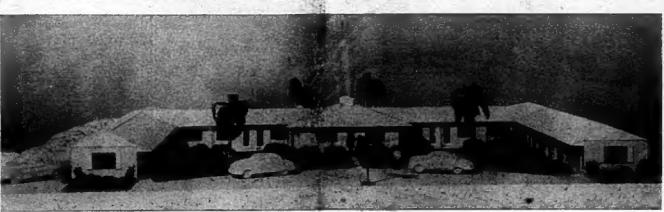

Wendell Lyons, who has been residing at McLeansboro for the past 18 months, spent a portion of last week here looking after business and his Bean City farm. Mr. Lyons is planning on again taking up his residence here, to be with his holdings, and also to gratify the wish of his widow.

Elmer, their son, who recently joined the Army, is still at Whitefish Falls, Texas, where he is taking his basic training course and expects he is likely in the new Army life.

Proposed motor court for Belle Glade Community to be operated by national chain.

Rams Travel Far To Meet Team At Panama City

Coch W. H. Cooke has now put his football squad in action for developing of offense and defense plays, nursing them along for their opening game at Panama City, on September 24.

This trip is a long trek of over 500 miles, which will be made in motor coaches and the largest one is the 7-mile viaduct and causeway leading over Pigeon Island and Moser Channel in the Florida key sector, enroute to Key West.

The State Highway Department states that Florida has some 2,688 bridges in the road system, measuring 113,240 feet in length, of which Pensacola and Belle Glade lodges are members.

It was held at the hall of Everglades Lodge in Pahokee on last Friday night, with President Chester Wright presiding.

The evergreen program was related to the Masonic Home at St. Petersburg, in furtherance of a Grand Lodge program, to bring about a method of cutting red tape, to get entrance to the corporation's traveline motor courts at Belle Glade.

President Henry O. Earwood,

conducted the representative about Belle Glade letting him see the territory and pointing out advantages, and informing him how much the city would help in establishing a promotion project, as he presented.

Mr. Earwood was present.

Ray G. Irvin, of West Palm Beach, president of The Travelrite Motor Court Association, a business locator in Belle Glade, the first of its kind, and contacted the Chamber of Commerce, in connection with a project of placing one of the corporation's traveline motor courts at Belle Glade.

Mr. Irvin placed in the window of the Florida National Bank a replica of the style of the proposed hotel, consisting of a main building with wings to house the motor guest rooms, all of artistic and modern design, to a capacity that would be expedient to accommodate.

Social Happenings

Recent guests of Mr. and Mrs. F. E. Hollingsworth and their daughter, Mrs. J. P. Hollingsworth, were Mrs. J. P. Hollingsworth, Mr. and Mrs. J. P. Hollingsworth, Jr., and daughter, Betty, Mrs. Ethel Yates, Mrs. A. E. Hood, Mrs. Wade Johnson, Mr. and Mrs. Donald Graham, and Miss Sally Simmons of Miami.

Sunday, Mrs. Henry and baby son, Elsworth, Jr., left for Colinswood, N. J., after spending a month here with her parents. She will remain there until his return home this week, as he is returning from Europe where he attended the World Council of Churches at Amsterdam, Holland. While there Rev. Howard, plotters of his grave, who was killed overseas during the war, in a military cemetery in Belgium.

Donald McLaughlin is spending his vacation with relatives at Helena and Atlanta, Georgia.

Mr. and Mrs. John Gledhill were weekend guests of Mr. and Mrs. Walter Robertson at their home on the Loxahatchee River in Jupiter.

Coch and Mrs. W. H. Cooke son and made a trip to southern Georgia last weekend.

Harry Doggett, parts superintendent of the Coastal Truck and Equipment Co., has returned from a vacation trip to Greenwood, S. C., where he visited his father, the Rev. A. M. Doggett.

Bill McClellan spent several days in Ft. Pierce this week on business.

Mrs. H. E. Hotard and Mrs. Milton Campbell were guests of friends in Ft. Pierce on Monday and Tuesday.

Milton Campbell is in Chicago, Ill., this week attending a convention of the National Bankers Association.

Mr. and Mrs. E. H. Browning and daughters, Mrs. Mr. and Mrs. L. Raskay, spent last Sunday in Lake Hamilton.

Demonstration Club Elects New Officers

The Home Demonstration Club met Thursday at the Club House and held an election of officers for the coming year, as did C. F. Jackson, president as past president, and Mrs. John Gledhill, vice-president; Mrs. Urban Felsing, secretary and treasurer; Mrs. Roy A. Bair, delegate, and Mrs. W. T. Elder as assistant.

An announcement was made that the county council meeting would be held in West Palm Beach on October 27th under the authority of Ethyl Holloway of Tallahassee as speaker.

The demonstration was on time, in line and color for fall clothing, and was conducted by Mrs. Thomas Bregger, clothing chairman. Samples of fall fabrics were also displayed, and information given by Mrs. Sara Horton, county agent, and Mildred Mischaud, assistant agent.

A decision was made to hold meetings an hour earlier during the winter months.

Honorees were Mrs. Roy A. Bair.

Governor of Rotary Makes His Official Visit to Local Club

The most efficient and valuable "goose-uppers" of the modern small community are the Civic Clubs. The leading civic club for men and women on national and/or international basis, and are directed in principle from national or international headquarters:

The mottoes and purposes of

these organizations are based on a high plane—not religious, but moral—and clubs are generally kept in line by constant checking from the next election.

During clinics, sight clinics, scholarships, crippled children, playgrounds, athletic fields, swimming pools and many other community efforts of progress owe their being to these clubs.

Mort McDonald, District Governor of Rotary visited the local club Friday and, as contact man between clubs and Rotary International, gave a talk based on Rotary's accomplishments, aims and policies.

On Thursday night before the official meeting, a Club Assembly was held, when Chairmen of important committees discussed with Governor McDonald plans for community work for the current year, and received encouragement, suggestions and commendations, as the need arose.

"Very International," said Mr. McDonald, "is composed of over 6,500 clubs with about 320,000 members located in 80 different countries or separate provinces of the world—We are international in scope and we should be international in our thinking. A man is not qualified as to his faith when becoming a member. Rotary is spiritual, for any ideal is spiritual, and the ideal of Rotary is Service Above Self".

On the subject of service above self in everything we do, whether in Club business, community or in the world as a whole."

The visiting Governor discussed the various areas of service as controlled by the four main committees, Club Service, Community Service Vocational and International Service.

Under Vocational Service the speaker suggested that "In business we should put our trust to the 'Four Way Test'. (1) Is it the truth? (2) Is it fair to all concerned? (3) Will it build good will and better friendship? (4) Will it be beneficial to all concerned?"

In discussing International Service, Mr. McDonald, repeated from an address at Quebec by Rotarian Watchtower of Warnings, the following: "There are three world problems: saving humanity besides which nothing else is very significant. They are these:

Can we avoid a third world war?

Can we avert a world-wide economic collapse?

Can we eliminate from industry the world over, class hatred and bitterness and put in its place friendship and cooperation?

Solve the third, and we may very likely solve the second; solve the second and the first

as well. Of them, the Lord said, "If Cain was driven out from the presence of the Lord he was afraid that someone might kill him. How could this be if there were no other people on the earth except Adam and Eve, Abel having been killed?"

"Cain was driven out from the earth. In under 100 years the death of Abel took place in the 12th or 13th year of the world. Suppose Adam and Eve to have had two sons, Cain and Abel, born in the 12th year, yet as they had daughters married to these sons, their descendants by that time would number in the millions, not thousands of men, not counting women or children under 17 years of age."

These FFA Boys Win Banker Scholarships

For leadership and achievement activities in their local chapters these outstanding Florida Future Farmers of America have been awarded scholarships to the University of Florida by the Florida Bankers Association. Left to right are: Ocala Chapter Editor, John F. Conroy; Ft. Lauderdale Chapter, Harry Florida Bankers Association; Orlando, Joe Canley, Havana Chapter; G. W. Polhill, Mason City Chapter, Lake City; and Billy Corlett, Poplar Springs Chapter.

Lions Clean Up On Billy's

By A Score of 8 To 3

miles of state roads and can per cent basis, but rather place

only maintain 8,000 while practicing no money is available for building.

Opponents of the measure fear that removal of the proceeds of one cent (approx. \$8,000,000 annually) will deplete the general fund of the state to the point where it cannot meet its school construction cost of \$12,000,000 a year. County commissioners generally endorse the measure; the Florida Education Association opposes it. The State Board of Education is remaining

that just two good teams played.

That last softball game of the season was played under the lights at Memorial Field, Friday night, in which the star Lion club battled against a selected team of players from the other three chapters.

The name of Bill's Restaurant is the Andes Mountain.

It was a Lions win by a score of 8 to 3. As it was a Lions swimming pool event, it did not make much point, but it did make

that two good teams played.

That game off and on game on loud speaker announcement tended to keep down the attendance, so there will be much of that to be made to the pool treasury.

It was the strong armed pitching and batting of Herman Clell that made it possible for the Lions to score a victory, for he was good and his form kept the opponents off balance from the start.

At his picket out a good one, and banged it almost out of bounds into right field, needing three runs.

Craig Johnson appeared in the box for Bill's boys, but had difficulty in consistently locating the plate, and several of his gifts resulted in scores. Leavitt at bat poled one into left field, sending off the ball on third base, and hit on third the ball on the ground.

Score was 8 to 3, and the team of Adam and Eve had won.

Leavitt, who cut out many potential runs, even though he did get his white pants mussed up in a slide.

Billy's 110 310 0-6

Batteries: Lions, Close and Leavitt; Bill's, Harrell, Uppire, Richmond.

Foretire Department Great Assistance To State Farmers

Farm and Foresty Service helped 732 small woodland owners gross \$494,132 in the year ending 30, Management Chief R. U. Pitt of the state agency said today.

Free assistance by the state agency, offered in cooperation with the U. S. Forest Service, consisted of marking timber for selective cutting and recommendations on thinning and reforestation operations.

Products harvested included 17,228,000 board feet of saw logs, 15,729 cords of pulpwood, 8,914 poles and pilings, 9,191 cross ties and 5,944 barrels of crude gum.

Marking timber for selective cutting on 46,713 acres, the state foresters marked 17,691,000 board feet and 17,691 cords of timber for cutting, according to Beyton Market Dissolves.

The Beyton Farm Market Corporation has dissolved its corporate rights, and its members will now be with the new Cooperative farm there. The Co-op will serve the farmers of the east coast this coming season.

Difference Of Opinion On Proposed Amendment

First of the proposed constitutional amendments now being advertised for the November 2 election is House Joint Resolution No. 10, proposing an amendment to Article IX, to be known as Section 17. The effect of this amendment if adopted is to write five cents of the gasoline tax into the constitution and fix the distribution of those proceeds, so the four cents will be spent by the State road department as it now is, and one cent will be distributed to the counties on the basis of the Budget Gas Tax, to be used for the retirement of road and bridge bonds in each county until a surplus develops, thereafter 60 per cent of the surplus from this one cent credited to a particular county to be spent on state roads within that county as the county commissioners may direct.

The remainder is to be spent by the state road department on general highway construction and maintenance. Road users argue that the state has \$4,000

of state roads and can per cent basis, but rather place

only maintain 8,000 while practicing no money is available for building.

Opponents of the measure fear that removal of the proceeds of one cent (approx. \$8,000,000 annually) will deplete the general fund of the state to the point where it cannot meet its school construction cost of \$12,000,000 a year. County commissioners generally endorse the measure; the Florida Education Association opposes it. The State Board of Education is remaining

It was the strong armed pitching and batting of Herman Clell that made it possible for the Lions to score a victory, for he was good and his form kept the opponents off balance from the start.

At his picket out a good one, and banged it almost out of bounds into right field, needing three runs.

Craig Johnson appeared in the box for Bill's boys, but had difficulty in consistently locating the plate, and several of his gifts resulted in scores. Leavitt at bat poled one into left field, sending off the ball on third base, and hit on third the ball on the ground.

Score was 8 to 3, and the team of Adam and Eve had won.

Leavitt, who cut out many potential runs, even though he did get his white pants mussed up in a slide.

Foretire Department Great Assistance To State Farmers

Farm and Foresty Service helped 732 small woodland owners gross \$494,132 in the year ending 30, Management Chief R. U. Pitt of the state agency said today.

Free assistance by the state agency, offered in cooperation with the U. S. Forest Service, consisted of marking timber for selective cutting and recommendations on thinning and reforestation operations.

Products harvested included 17,228,000 board feet of saw logs, 15,729 cords of pulpwood, 8,914 poles and pilings, 9,191 cross ties and 5,944 barrels of crude gum.

Marking timber for selective cutting on 46,713 acres, the state foresters marked 17,691,000 board feet and 17,691 cords of timber for cutting, according to Beyton Market Dissolves.

The Beyton Farm Market Corporation has dissolved its corporate rights, and its members will now be with the new Cooperative farm there. The Co-op will serve the farmers of the east coast this coming season.

Difference Of Opinion On Proposed Amendment

First of the proposed constitutional amendments now being advertised for the November 2 election is House Joint Resolution No. 10, proposing an amendment to Article IX, to be known as Section 17. The effect of this amendment if adopted is to write five cents of the gasoline tax into the constitution and fix the distribution of those proceeds, so the four cents will be spent by the State road department as it now is, and one cent will be distributed to the counties on the basis of the Budget Gas Tax, to be used for the retirement of road and bridge bonds in each county until a surplus develops, thereafter 60 per cent of the surplus from this one cent credited to a particular county to be spent on state roads within that county as the county commissioners may direct.

The remainder is to be spent by the state road department on general highway construction and maintenance. Road users argue that the state has \$4,000

of state roads and can per cent basis, but rather place

only maintain 8,000 while practicing no money is available for building.

Opponents of the measure fear that removal of the proceeds of one cent (approx. \$8,000,000 annually) will deplete the general fund of the state to the point where it cannot meet its school construction cost of \$12,000,000 a year. County commissioners generally endorse the measure; the Florida Education Association opposes it. The State Board of Education is remaining

that just two good teams played.

That game off and on game on loud speaker announcement tended to keep down the attendance, so there will be much of that to be made to the pool treasury.

PETER PAUL SURPRISES CUSTOMERS WITH UNUSUAL SERVICE DURING BLOW

It was freely predicted that Monday and Tuesday night that our power would disappear when the wind became 20 miles an hour or more, but power was available until after daylight on Wednesday morning. The lines were cut to save trouble from the increasing winds, but they were restored.

The hurricane being reported on by Miami Weather Bureau only damaged a few poles and everything was in readiness to cut us back in until the father of the house, a retired oil user. That was to work and he stabilized the lines between Pahokee and Belle Glade, as well as the two main transmission lines from north and south.

At 10 p. m. Monday night and all day Thursday until 11 p. m. local and imported crews toiled to restore service to "most" locations.

The absence of power greatly disturbed the people, but their heroic action were given mentally and verbally to Peter Paul, but he dashed around with his team and your son getting things going. The gremlins were busy with the power lines and he had to have a pat on the back. The crew chiefs and their propane parties deserve our thanks for working right thru the hurricane and afterwards to get the lines hot."

NORTON TOSSES

(Continued from Page 1) to be some changes made" in the method of assembling and dispensing information about hurricanes, one of ours did not do so well. He has been to his boyhood home to see his old schoolmates and his neighborhood, and to his old teacher, Mrs. Anna Winter, who taught him in the winter of 1912-13.

This year Kermit is acting as assistant football coach for the Jupiter High School, and he is making great strides with the club this season.

The Jupiter High School building, where Mrs. Roosevelt now resides, is a beautiful architectural building and large enough to house many more times the 100 children now enrolled there.

Those who all around Jupiter are to be found fernery plants, the product from which are shipped to florists all over the nation. Other plant nurseries and greenhouses still offer farm vegetables and raise cattle.

The Seahawk retain most of their last year first string, enough to make the team a real contender.

The Berry Funeral Home is in charge of funeral arrangements which at the time of going to press had not been determined.

PAHOKEE CITIZEN Dies

JAMES V. HAMMOND, aged 53, of the Pahokee Post Office Saturday, and funeral services were held at the Catholic church there. Burial was made at the Port Mayaca Cemetery. The deceased is survived by his wife and two daughters, Mrs. R. S. Stuckey and Mrs. M. H. May of Pahokee, four grandchildren, Ronne and Donald May, Robert and Margaret McCoy, three brothers, Vance and Charles of Pahokee, Bane, of West Palm Beach, and one sister, Lee McArthur of Jacksonville.

The Berry Funeral Home is in charge of funeral arrangements which at the time of going to press had not been determined.

Commander Jack Johnston and his crew of naval reservists filled an important gap for the community, and for a major part of the only reliable source of information about the storm's progress.

By intercepting reports from the hurricane gates to the central office at Clewiston these data were informed hourly on wind velocities and directions from the weather station at Okchobee, St. Lucie, Canal Point, Belle Glade, Lake Harbor, Clewiston, Moore Haven and Ortona. This same information from east and west coast cities enabled the Navy boys to plot the storm.

The plottings would have been valuable data for the Miami Weather Bureau and would probably have been of great value if the outfit from giving out no information and misinformation from time to time.

This set-up is a "must" for the Commandant from now on, and information can be had in the equipment and operation in the future.

Mr. Vaughn says most of the damage will be survival, although there is considerable damage from wind and water.

It's possible that the commencement of our harvest will delayed.

RED CROSS SURVEY INDICATES NO HOPES NECESSARY IN GLADES

After a careful survey of damaged houses, it was found that Pahokee had suffered the damage in a great majority of cases so slight that it will not be necessary to send special case workers to investigate.

Paper roofs were damaged, though very few individual slate covered shingles were burst by the blow.

Trees and shrubbery suffered almost universally, but worst from the unrecognized second storm.

Commission Meeting Postponed

Owing to storm conditions existing on Wednesday night, the regular session of the City Commission was not held, but will be held on Wednesday night at the usual hour. At that time the old council will close up its business and the new commission body will take over.

Reorganization will be made at this time, and while conferences have been held, and tentative selection of departments made, no official releases have been made.

Buried By Gas Explosion

Mrs. May Potter, who operates the lunch stand in the Standard Oil Company, was buried yesterday when she attempted to light the stove. The blast severely burned her about the arms and face, so that she was under a physician's care for several days.

New Spray Program Helps You Grow More QUALITY CELERY

Unbiased tests proved Dithane D-14 and "Neutrol Copper" best for celery disease control. That's the verdict of the Everglades Experiment Station, Belle Glade, Fla.

The Belle Glade station has tested a number of fungicides. On the basis of their actual field results, the station now recommends a program of alternate spraying—twice with Dithane D-14 and once with a "Neutral Copper" on a 4 to 5 day schedule.

We have two Rohm and Haas products—Dithane D-14 and Yellow Cuprocid—ready to guard your celery crops.

See us for your Dithane D-14 and Yellow Cuprocid needs.

SOUTH BAY BEAN CITY LAKE HARBOR

Mrs. Mildred Larick and sister, Miss Helen Boerge recently returned from Tallahassee where they attended the Florida State College. Mrs. Larick is working for a degree, majoring in English. Miss Boerge has had degrees with French as a major, and leaves this week for the Episcopal School of Divinity for a two year course in Religious Education and a Master's Degree.

Mr. and Mrs. Burton Rawle of Belle Glade were the Sunday dinner guests of Mr. and Mrs. M. E. Cooper and family.

Mr. and Mrs. H. O. Mitchell recently returned to Hamilton, N. Y., the last of the week. They have been operating a store during the summer.

Mr. and Mrs. S. M. Bivens of Fort Lauderdale were the Sunday guests of Mr. and Mrs. J. C. Campbell and family.

Mrs. R. R. Roadman has returned from a three week visit at Terra Haute, Indiana. She was accompanied on her trip by her father, James Alsop of Tampa.

Mrs. E. E. Hardy and infant daughter Cherry have returned from the hospital at West Palm Beach.

Mark Challancin, who has been engaged in the produce business at Hamilton, N. Y., during the summer, has returned home the first of the week with his trucks and negro labor.

Richard Burney of Lake Worth was the Sunday guest of Donald Babb.

Mr. and Mrs. H. C. Willis, who spent the summer at Seattle, Washington, with their son-in-law and daughter, Mr. and Mrs. W. N. Christensen and son Curtis, were visiting

at Harlem, Montana last week enroute to the mountains, expecting to reach the Glades this week.

There will be a Regional Conference of the Mormon Church at the Belle Glade Legion Hall on October 10, an all day session.

Mrs. Mildred Corley of Lake Harbor, mother of Mrs. Mildred Larick and Miss Helen Boerge, is visiting the mother of Mrs. Anna Boatwright of Atlanta, Ga.

Mrs. Jimmie Challancin and sons, Mickey and Jimmie have returned from a visit at Fort Pierce with Mr. and Mrs. J. C. Campbell and family.

M. E. C. and Mrs. James V. Allen and little niece Jean of Pennsylvania were down from the Green Cove Springs Naval Base Sunday for visits with her parents, Mr. and Mrs. W. C. Allen.

Mrs. W. M. Jefferis has returned from St. Mary's Hospital in Miami, Fla., after a long operation and is recuperating at the home of her daughter and son-in-law, Mr. and Mrs. T. E. Weathers.

Mr. and Mrs. T. E. Weathers are leaving this week with their son Tommy for Atlanta, Ga., to consult an Allergy Specialist regarding an ailment of the child.

Mrs. Ada Littlefield of Daytona Beach, sister of the late C. M. Larick, is visiting Mrs. Mildred Larick at Lake Harbor.

Another Fatal Auto Accident Occurs Near Okeechobee

An accident on State Road No. 25 some 10 miles south of South Okeechobee on Friday night resulted in the death of Mrs. Carl Crawford of Miami and serious injuries to her husband, who was hospitalized at the Belle Glade Hospital. He was released from the hospital on Monday to relatives from Okeechobee, who came for him. The Crawfords crashed into a parked semi-truck trailer truck. The truck driver, Harold Selma, was exonerated from any blame for the accident by Coroner George Tamm, who was away yesterday. Walton Sheffield and Dr. W. H. Kauffman, who investigated the accident, reported that all safety regulations had been observed by the driver of the car, drawn to the side of the pavement and was putting out flares at the time of the crash, one flare being in place and the other being set.

Services and burial will be at Pahokee, W. Va. She was 39 years of age.

Survivors are her husband Carl Crawford, her parents, one sister Mrs. Mary B. Akins, Okeechobee; six brothers, George W. Clow, Jr., Chicago; Claude Clay, Boca Raton; and many all of Okeechobee; Thomas Clay, West Virginia and James Clay.

At the inquest held before Justice of Peace George Tedder, in the Bell Glade Monday night, it was shown very definitely Selma, of any responsibility for the accident, for when he stopped his truck on the side of the road, he had complied with all highway regulations. Crawford, the husband of the deceased woman, was unable to be a witness at the inquest, but did give State Patrolman Sheffield a statement, which was presented to the court and jury.

The information is that the Crawfords were on the home to Miami, and he had become tired, he suggested they pull off the road and rest, but that his wife did not favor the idea so she did not stop, altho' not an expert truck driver, and that they were trying to regulate the gas, when the collision occurred, and he did not notice that his wife saw the parked truck.

A negro farm hand who was an eye witness to the accident, stated that he saw Selma place out his flares, and to his opinion the truck was traveling in excess of 60 miles an hour.

County Patrolman Eddie Buek, was out to conduct the hearing and examined John Kirk Ray Whitecock, Patrolmen Sheffield and Kaufman and several other witnesses.

Death Comes To A South Bay Flyer in South Pacific Crash

Clarence A. Cooper well known patrician of Lake Okeechobee has received word of the death of his son 1st Lieutenant Winfield Warren Cooper, when his plane crashed on a flight from the island of Formosa to Clark Field, Philippines Islands on September 8. An intense 8 day hunt for the missing plane resulted in discovery of the wreckage and recovery of the body of Lieutenant Cooper according to advice received by his father.

Lieutenant Cooper was 30

years of age this month. His present assignment in the Army Air Corps was to have expired on September 29 and plans for himself and family to visit in South Florida had been made.

He is survived by his father, C. A. Cooper, his wife, Mrs. Mildred Larick, age 4, and David Bruce age 3, his mother, Mrs. Mary Moore of Canton, Ohio, two brothers, C. E. Cooper of Miami, and grandparents, Mr. and Mrs. E. J. Cooper, pioneers at Okaloosa.

Lieutenant Cooper was born at Glades, Okeechobee, coming to the state when his father when a small boy. He attended school at Okaloosa, 1926-27 and at South Bay, 1927-28. He was graduated from the High School at Williamson, W. Va., with honors and from the Concordia Seminary, W. Va. in May, 1942, majoring in physical education, planning to become an athletic coach.

He registered for the draft in 1942 enlisting in the U. S. Army.

He was given the privilege of completing his college course and called to active service immediately after graduation. He was selected as one of 50 students from 3000 who were trained for an instructor.

Service as instructor at Maxwell Field and Gunter Field near Montgomery, Ala., throughout the war he graduated 172 student pilots.

At the end of the service at the end of hostilities, he taught for a short time at Brooks College, leaving there to re-enlist for a period of three years. He was stationed at Clark Field, Manila, P. I. and his family followed him. Mrs. Cooper is presently at his death and is in a coma. She is being flown from Manila to Letterman General Hospital at San Francisco under contract of the government and will be flown under escort direct to Canton, Ohio to visit her mother's recovery. Plans for services and interment of the body are awaiting directions from the fire in the wreckage.

The sympathy of the community goes out to this pioneer family in their bereavement.
